CAMPUS BULLETIN **CAMPUS BULLETIN** May 17, 1990

OUGHT FOR THE WEEK:

"People are afraid of the future, of the unknown. If a man faces up to it, and takes the dare of the future, he can have some control over his destiny. That's an exciting idea to me, better than waiting with everybody else to see what's going to happen."

John H. Glenn, Jr.

DAVILLA SUPPORTS IEP AGAINST OPPOSITION: Robert Davila in the Office of Special Education and Rehabilitation Services (OSERS) is receiving criticism from SAFE (Schools Are For Everyone) and TASH (The Association of the Severely Handicapped) because he has refused their demands that he remove all reference to school placement options and instead focus on 100% mainstreaming or placement in the local public school.

Because Davila strongly feels that no matter what the child's handicap, all placement decisions should be determined by the Individual Education Plan (IEP), TASH and SAFE are planning to marshal all their forces in an onslaught on his office. Some school districts are relieved when they learn that mainstreaming need not be enforced, unless indicated by the IEP.

Lawrence R. Newman, President of the National Association of the Deaf asks, "The question is do we or can we marshal our forces, our thoughts and our action when threatened by larger and more powerful groups who know next to nothing about us?" Dr. Robert Davila is the highest ranking deaf person in the U.S. Government. Give him your support today. Write to:

News From the Bi-Lingual/Bi-Cultural Office: The Third International Conference on Theoretical Issues in Sign Language Research was held in Boston, MA on May 17-19, 1990. Ted Myhre, Laurene Gallimore, Louise Fitzpatrick, and Ann Titus attended. Linguists and Anthropologists from around the world presented their most recent findings in the area of sign language research.

During the Conference, a special meeting was called by Dr. Harlan Lane for all persons interested in the use of ASL in schools for Deaf children. At that meeting he proposed the formation of a National organization to promote bi-lingual/bi-cultural education. The meeting participants agreed that such an organization was needed and suggested that a steering committee be appointed to plan a conference for 1991. That conference will be held in Indianapolis and will focus on building the organization. The meeting participants then appointed Ben Bahan and Ann Titus to select the steering committee.

We are truly excited about this new organization and the impact it can have on Deaf Education. For more information see any one of the four ISD staff members who attended the conference. - Ann Titus

DID YOU KNOW THAT? By a legislature act passed on January 15, 1844, Mr. William Willard's school became a state institution called, "The Indiana Asylum for the Education of the Deaf and Dumb." This institution was the seventh institution for the deaf founded in the United States. The school term was held from the first Monday of October, 1844, through the last day of July, 1845, a ten month term on a budget of $1,905.00.

Mr. Willard, a deaf teacher, was appointed as the principal of the Department of Instruction. Mr. Willard was at the Indiana Institution for twenty years, 1843 to 1863. He was buried in Crown Hill Cemetery in Indianapolis, Indiana. Mr. Willard was the only teacher for the first group of sixteen students. Admission age ranged from ten year old pupils up to thirty year old pupils. Pupils were required to take a five year course to earn a certificate.

During the 18th Year of ISD, 1861-1862, War clouds cut the attendance down to 142 pupils, due to the Civil War. Some men entered the Army without making provisions for sending their deaf children to this Institution. The older boys were kept home to supply the places at work of brothers or fathers who had gone to fight for their country.
